

Negotiated Re-Roof Projects and New Roof Project Request

Your quote request needs to include the following project information:

- 1) Job Name, Job Location (City, State), contractor's name, contractor's contact information, ABC branch location and branch contact information.
- 2) Job request must have bid date and/or date needed.
- 3) What type of tapered insulation material is being requested (ISO - *Polyisocyanurate*, EPS - *Expanded Polystyrene*, XPS - *Extruded Polystyrene*, Perlite - *Fesco*)
- 4) The direction of slope and desired pitch of the tapered system (1/16", 1/8", 1/4", 3/8", 1/2") "*Tapered System includes tapered panels and fill insulation only required to achieve slope*" (**not base layer**)
- 5) The desired pitch of the cricket or saddle system "*Typically twice the slope of the field*" (1/4", 1/2", 3/4", 1", etc.)
- 6) The existing deck slope is required when requesting cricket or saddle only estimates.
- 7) The minimum starting thickness of the tapered system only, excluding any materials to be installed under the tapered system (*i.e. base layer*) or over the tapered system (*i.e. overlay*)
- 8) If there is a maximum overall thickness required for the tapered system to maintain a specified height at any parapet wall, wood blocking, drip edge, or any abnormal situations.
- 9) When you send architecturally drawn roof plans to us, they must be to scale or have dimensions on the plans.
- 10) Any hand sketched roof plans must show the roof's entire perimeter dimensions and clearly locate all drains, gutters, scuppers, skylights, roof top units, interior roof areas, etc.
- 11) The required R-value if specified and if the requirement pertains to a minimum R-value (*i.e. lowest point anywhere on the roof area*) or average R-value (*i.e. overall average thickness of the roof area*)

NOTE: All of this information listed above is listed on the "**Tapered Request Form**"
