

To: McElroy Metal Valued Customers

From: Scott Slone, Vice President of Sales

Subject: Upcoming Price Increase Effective January 8th, 2026

Date: Dec. 11, 2025

Dear Valued Customer,

In the last few weeks, steel mills have announced multiple price increases, and the costs of zinc and aluminum for protective coatings have also climbed. As a result, McElroy Metal will implement the following price increases, effective January 8, 2026.

- Painted panels, slit coil, and flat sheets: 5%
- Bare panels, slit coil, and flat sheets: 9%
- All trim: 3%
- All substructural products: 6%
- All metal accessories and clips: 3%

To secure current pricing, please ensure the following:

1. Orders must be received by Noon on January 8th, 2026

2. Orders must ship on or before January 23rd, 2026

While this adjustment reflects current conditions, the market remains fluid, and additional price changes may be required in the coming months. We will continue to monitor mill activity and raw material cost trends closely and provide timely updates should further action become necessary.

As we navigate these conditions together, thank you for your continued trust and partnership. Please also be aware that if supply constraints arise, we may limit order quantities to ensure fair access to materials for all customers, guided by historical purchasing patterns.

For questions or assistance with upcoming orders, your McElroy Metal representative is here to help.
