

March 9<sup>th</sup>, 2026

Subject: Price Increase Announcement

Dear valued customer,

The current conflict in the Middle East and its effect on oil prices is severely impacting our March raw materials costs to produce EPS.

While pricing on already placed orders will be honored, due to this situation we will need to reflect a price increase of **\$0.10/lb (\$0.22/kg)** on any **new/additional** orders placed as of today for March deliveries.

We will continue monitoring the trends and will do our best effort to minimize the impact on the market and pricing for April.

While availability is not currently an issue, planning and forecasting will help us be better prepared and remain competitive.

Should you have any questions, your Styropek representative will be available to further clarify and assist.

We appreciate your business and look forward to continuing working with you.

Sincerely,

Diego Ymay  
Business Director North America
