

July 16, 2026

Attn: Purchasing Department & All Sales Personnel

Purchasing and Sales Staff,

Due to several increases from material suppliers and operational overhead increases, Solar is increasing our product pricing effective August 16, 2026.

These new pages have your new LIST prices for our skylights effective August 16, 2026.

If you are outside one of our local Solar branch service areas or require delivery of an order outside of such area, you will need to contact the Solar branch that you normally order from for additional delivery fees and/or freight charges to be assessed per shipment.

If you have any further questions, please contact your local Solar Industries, Inc. branch manager. We appreciate and value your business. We thank you for your understanding.

Your new skylight factor is: **.53**

Respectfully,
Don Anthony
General Manager
Solar Industries, Inc.
