**FREIGHT SURCHARGE ADJUSTMENT UPDATE
FOR GAF COMMERCIAL PRODUCTS: US, CANADA, and EXPORT**

Dear Valued Partners,

To mitigate significant, ongoing increases in freight, diesel fuel, and logistics costs, we will be implementing a freight surcharge adjustment effective September 28, 2026. The specific amounts are outlined below:

Freight Surcharge	September 28
United States	\$1,100
Canada Export	\$1,300

While the current freight environment presents hurdles, our team is working hard behind the scenes to minimize any disruptions to your jobsites and warehouse deliveries. We genuinely appreciate your collaboration and invite you to share your upcoming project needs with us as early as possible so we can best support your plans.

We value our partnership and remain committed to clear, open communication. If you have any questions, please contact your Area VP, Regional Sales Director, or local GAF sales representative.

Thank you for your continued support and your business.

Dan Karins
SVP, GAF Commercial Sales
