

September 4, 2026

Valued Henry Customers and Business Partners:

We are writing to provide advance notice of a **5% price increase across all Henry products, effective October 5, 2026.**

We continue to experience sustained increases in raw material, manufacturing, and logistics costs. While we've worked diligently to absorb these pressures where possible through operational efficiencies and supply chain initiatives, the cumulative impact of these rising costs now requires a price adjustment to ensure we continue delivering the product quality, availability, and service you expect from Henry.

All orders shipped on or after October 5, 2026, will be invoiced at the new pricing. If you have any questions, please don't hesitate to contact your local Henry sales representative.

Thank you for your continued trust in Henry. We remain committed to delivering the quality and service your business depends on.

Sincerely,

Jim Wueste
Vice President
Carlisle Weatherproofing Technologies
