

Good morning,

Due to the flat tariff on imported goods coming into the United States, Alpha ProTech Engineered Products, Inc. will be implementing a line item surcharge of 10% on all products Alpha ProTech and REX Brand products, effective May 13, 2025. Orders placed prior to COB on Monday, May 12th will not have this surcharge. A few additional notes regarding the tariff:

- Orders placed prior to COB on Monday, May 12th will have immediate shipment requirements.
- As the tariffs are still a developing situation and rates are still being negotiated, we will continue to monitor the situation and make adjustments/removals as necessary.
- Should the 10% Tariff become permanent, we will reissue price sheets to reflect that change. Until that time it will be an invoice line item only.

If you have any questions or concerns, please do not hesitate to reach out to discuss further. We greatly appreciate your continued partnership and ongoing business as we navigate through these challenging times together.

Kindest regards,
ATU
