To: Valued Atlas Customers

Subject: Polyiso Insulation Pricing

Due to the continued rise in cost inputs for our polyiso products, we are announcing a price increase up to 6%, effective May 1, 2026. The new price will be effective for all orders shipped on or after May 1. Previously quoted projects will be honored to the specified expiration date.

I assure you we are doing everything possible to minimize the impact of these cost increases. Atlas is recognized for high quality and excellent service. We are working hard everyday to make sure that reputation continues.

Thank you for your business and continued loyalty to Atlas.

Sincerely,

Robert Ferree
Vice President/General Manager
Atlas Roof and Wall Insulation Division
