

**April 1, 2026**

**Transportation Surcharge Update  
Effective April 15, 2026**

Dear CertainTeed Commercial Roofing Customer,

Due to continued increases in fuel and transportation costs, CertainTeed will be increasing the full truckload (FTL) transportation surcharge to **\$400 per truckload**, effective for all shipments on or after **April 15, 2026**.

To provide greater transparency and help you plan accordingly, this surcharge will now be indexed to the Energy Information Administration **U.S. national average price of diesel fuel**, as outlined in the schedule below. Once the national average diesel price moves above or below a pricing tier for a sustained period of **30 days**, the applicable transportation surcharge will adjust to the corresponding tier.

**Effective June 1, 2026**, all future surcharge changes will take effect on the **first day of the upcoming month**.

Diesel – All types – U.S. National Average	Transportation Surcharge / FTL
Below \$2.50	No surcharge
\$2.51 - \$3.25	\$100.00
\$3.26 – \$4.00	\$200.00
\$4.01 - \$4.75	\$300.00
\$4.76 - \$5.50	\$400.00
Above \$5.51	\$500.00

We appreciate your continued support of CertainTeed Commercial Roofing Products and remain committed to providing reliable service while navigating ongoing transportation cost volatility.

Sincerely,

Robert Montanaro  
Business Director  
Commercial Building & Infrastructure
