

January 29, 2026

Dear ABC Supply:

CertainTeed is announcing a price increase on Kaycan Aluminum Products effective on all shipments beginning March 2, 2026. We have worked hard to minimize the impact of rising raw material costs on our products by securing alternative suppliers and absorbing some of the increased costs.

Prices will increase up to 5%, effective with orders shipping beginning March 2, 2026 for the product categories listed below:

- **Kaycan Aluminum Siding, Soffit and Trim Products**
- **Kaycan Aluminum Rainware**
- **Kaycan Bulk Coil**

Beginning March 2nd, 2026, all orders and shipments will be billed at the new pricing regardless of the order entry date.

New price sheets with specific details will be available in February. All orders will be subject to current lead times and will be shipped at our plants' discretion. Please reach out to Nicole Juchniewicz nicole.juchniewicz@saint-gobain.com should you have specific questions.

Thank you for your business and continued support of Kaycan Aluminum Products.

Sincerely,
Kara Radcliffe
Director, Product Management
