Upcoming Pricing Adjustment – Effective June 15, 2026

To: U.S. Elevate Customers

Dear Valued Customer,

Persistent geopolitical volatility in the Middle East has catalyzed a structural shift in global energy costs, specifically impacting crude oil and petroleum-linked feedstocks. This disruption has caused significant increases in our raw material cost. Furthermore, higher diesel prices and continued driver shortages necessitate an additional increase of our freight surcharge.

As such, Elevate is implementing the following material and freight price adjustments.

Product Category	Increase	Effective Date
Asphalt Membrane and Accessories	Up to 8%	6/15/2026
EPDM Roofing Membrane and Accessories	Up to 6%	
TPO Roofing Membrane and Accessories	Up to 7%	
PVC Roofing Membrane and Accessories	Up to 5%	
Polyiso Insulation and Accessories	Up to 8%	
Low Rise Foam, Adhesives, Primers, and Sealants	Up to 8%	
Other accessories	Up to 7%	

Our freight surcharge will increase to \$700 per shipment, effective June 15, 2026.

This price increase will apply to all orders shipped on or after June 15, 2026. All currently approved quotes will be honored at the pricing stated therein, subject to their validity period and terms.

We appreciate your support and partnership through this challenging time, and we will keep you informed as conditions change. If you have questions, concerns, or if we can help in any way, please contact your local [Elevate Sales Representative](#).

Sincerely,

Frank Palmer
