TO: All Customers

Subject: Price Increase

Aluminum prices have continued to increase since our last increase on January 1, 2026. Midwest Spot Aluminum Pricing has gone up over 20% since the end of December. Resins and other coating components have increased in cost to go along with increased transportation, packaging and labor costs.

In an effort to keep up with the current increases, we must raise our price 9-12% depending on product. This increase is in effect for all orders placed on or after April 1, 2026.

Your sales representative will contact you soon with a new price page, and to answer any questions.

Thank you for your continued support.

Sincerely,

Tim Dalton
