Quality Aluminum Products

October 27, 2025

Dear Friends and Partners,

We appreciate your continued support and patience as we battle through these current economic challenges with regards to aluminum. As we're sure you are aware, the cost of aluminum continues to increase. In addition, our paint costs, corrugated packaging costs, shipping costs, and wood pallet costs still continue to be negatively affected by our current higher rate of inflation.

As a result of these current economic challenges and resulting increased costs driven by aluminum, please note that effective on orders placed on and after **December 1, 2025**, we will be increasing the prices on our aluminum products. Percentages of increase are:

- **Aluminum Trims & Flashing Products 8% - 12%**
- **Aluminum Ventilation Products 10%**

Thank you for your continued support and for your understanding of the need for this increase. Again, we appreciate your business. Please don't hesitate to contact us with any questions.

Sincerely,

Donnie Anderson

VP/GM Ventilation / VP of Sales -Wholesale
