## IKO US Commercial Pricing Announcement

Effective: July 1, 2026

To Our Valued Customers:

Due to ongoing geopolitical instability in the Middle East and resulting disruptions in global energy and petrochemical supply chains, raw material costs continue to rise beyond earlier expectations. Combined with increasing transportation and freight expenses, these factors have created sustained cost pressure across our business.

As a result, we will be implementing a price increase across select product categories and an increase in our freight surcharge.

Category	Increase
TPO and TPO Accessories	Up to 7%
ISO	Up to 8%
Other Accessories	5-7%

All orders shipped on or after July 1, 2026, will reflect the updated pricing, regardless of when the order was placed. We will continue to honor existing job quotes through their stated expiration dates, though we're unable to extend them beyond those terms

### **Freight Surcharge:**

The freight surcharge will increase to \$700 effective May 25, 2026.

We sincerely appreciate your continued partnership and understanding. Please don't hesitate to reach out to your IKO sales representative if you have any questions or would like to discuss the impact in more detail

Sincerely,  
IKO INDUSTRIES INC.

Michael Mendoza  
Director of Single Ply Systems - US Commercial
