

June 16th, 2025

Dear Valued Customer,

On June 4<sup>th</sup>, 2025, the US Government increased the current Section 232 tariffs on steel imports from 25% to 50%. Although finished K-Lath products are produced in our production facility in San Bernardino, CA many of our raw material inputs are produced elsewhere. Tree Island Steel cannot absorb this increase in raw material costs. Due to the increase of galvanized wire input costs, Tree Island Steel is implementing a price increase for all K-Lath products, effective for all shipments on or after July 7<sup>th</sup>, 2025.

Your Sales Representative will follow up with you directly with updated K-Lath pricing. We appreciate your business and thank you for your continued support.

Respectfully,

Dan Ehler  
US Sales Manager
