

March 25, 2025

Dear ABC Supply:

Due to the recent implementation of aluminum tariffs (US S232 tariff and Canada's retaliatory tariff) as well as the planned implementation of the US tariffs on April 2, 2025, we find it necessary to implement tariff surcharges on all Kaycan metal products produced in Canada.

Effective immediately, the following tariff surcharges will be applied to all new orders:

- **Kaycan Aluminum Siding, Soffit, Rainwear, and Trim Products: 40% tariff surcharge**
- **Kaycan Bulk Coil: 20% tariff surcharge**

Kaycan aluminum rainware produced at the CertainTeed Social Circle plant will not be impacted by a tariff surcharge.

We will amend the above surcharges if tariff timing and/or amounts change.

Please reach out to Nicole Juchniewicz or me should you have specific questions.

Thank you for your business and continued support of Kaycan Aluminum Products.

Sincerely,
Kara Radcliffe
Director, Product Management
