

October 1st, 2025

Dear Valued LP® SmartSide® Partner,

LP sincerely appreciates your ongoing support and the dedication you've shown in driving demand for LP® products. Your continued partnership is instrumental to our shared success. I am writing to inform you of two upcoming changes of which you should be aware.

1. Pricing Adjustment & Q4 Allotment – Effective October 31, 2025

On October 31, 2025, LP will be announcing a price adjustment on its SmartSide® trim and siding products that will go into effect in January of 2026. This adjustment will apply to both our primed and ExpertFinish® products. (Note that orders shipped in Q4 will receive 2025 pricing.)

Your Inside Sales Account Manager will be in touch to review your current shipments, orders, and *remaining Q4 allotment*. If you have any questions, please contact your Inside Sales Account Manager.

2. Contract Transition – Effective January 1, 2026

As part of our recent alignment between the siding and OSB businesses, LP will be transitioning all current agreements to a new Master Agreement for Purchase and Resale (MAPAR), effective January 1, 2026.

This strategic move is designed to:

- Simplify and streamline the annual contracting process
- Foster stronger collaboration and growth
- Make it easier for you to do business with LP

You will receive further details about your new contract in the coming weeks. Please note that all existing agreements will be replaced as of January 1, 2026.

We understand that changes can raise questions, and we are committed to supporting you every step of the way. If you need additional information in regards to allotment questions, please reach out to your Inside Sales Account Manager. For questions regarding your current agreement and/or MAPAR concerns, please reach out to your Field Director or Senior National Account Manager.

Thank you again for your partnership and trust in LP. We look forward to continued success together.

Sincerely,
Craig Sichling
Chief Commercial Officer
