

May 7, 2025

**(PRICE CHANGE ANNOUNCEMENT)**

To: All DRYline® Brand & NSP Private Brand Building Wrap Customers

As you are probably aware many building wrap substrates are manufactured overseas and subject to new import tariffs. We have absorbed a portion. A smaller portion must be passed along in the following June 7, 2025, price adjustments.

- DRYline W: 5% increase
- DRYline HP, MP, LP, HPX: 3.5% increase

These price adjustments apply to orders placed after June 6, 2025. Your six-month average purchase volume is assured at current prices. Order quantities beyond this historical monthly average may be shipped at the June 7<sup>th</sup> prices.

Price increases present unpleasant challenges. Please be assured that we will continue seeking efficiencies within our global supply chain and Richmond, VA manufacturing operations that can reduce costs and prices. Also, if the new tariffs are reduced or cancelled, we will immediately respond accordingly.

Thank you for your business and continued support.

Cordially,

A handwritten signature in black ink that reads "John".
