RE: Section 232 Steel and Aluminum Tariff Update

Dear Valued Customer,

As of June 4th, 2025, the U.S. government has enacted a 25% increase in tariffs on imported steel and aluminum under Section 232, along with a 10% tariff under the International Economic Emergency Powers Act (IEEPA). While we manufacture our products in the U.S., many critical raw materials are sourced internationally, particularly from Canada. These newly imposed tariffs are driving immediate cost increases for OMG, requiring immediate pricing action.

Effective June 12th, OMG Roofing Products will apply an 8% tariff-related surcharge on all new orders of metal products.

All shipments on or after June 23rd, 2025, will be subject to the 8% surcharge, including orders placed before June 23rd.

Please feel free to reach out to me directly or your local OMG representative with any questions.

Thank you for your continued partnership as we work through these challenges together.

Sincerely,

John McMahon
SVP & General Manager
