Re: SOPREMA Pricing Announcement

Dear Valued Customer:

As you are likely aware, cost escalations and supply chain disruptions continue to affect our industry. Due to these factors, pricing for SOPREMA residential and blackline categories, including Resisto by SOPREMA products, will be adjusted as follows:

Product Category	Percent Increase
Self-Adhesive SBS Membranes (LB1236)	6-9 %
VP SA® Air Barrier	6-8 %
SOPREMA SELECT SBS & APP	6-8 %
Asphalt and Butyl Tapes	3-6 %
SOPRA-XPS®	6-8 %
Mastics & Cements	8-12 %
Below-grade Waterproofing	6-8 %

To standardize business operations, the national freight program for the listed product categories will increase by \$175 for all full truckload deliveries. Pallet program rates will increase, and the new rates will be communicated by the end of March.

New pricing is effective for purchase orders received after April 5, 2026. For purchase orders received prior to April 6, the ship date must be marked no later than 30 days from the date of the purchase order.

Thank you for your continued support of SOPREMA.

Sincerely,

Tim Kersey
CEO – U.S. Operations
