

Ross Mfg Price Increase

Effective June 16, 2025, Ross Mfg will be instituting a price increase on all our ventilation products.

Ross' last price change was in 2021. While manufacturing costs have continued to rise since then, we have absorbed as much of these costs as we possibly can and must now pass along the increase to our valued customers. The most recent price increases are due to costs incurred due to the tariffs affecting our suppliers and manufacturers. Although Ross sources our goods domestically the continuing tariffs are affecting all prices.

We will be having a 5% across the board price increase, see the attached.

Please notify your contractors and builders of this impending price increase. We are giving 60 days' notice to allow time for you to notify these customers. If you have any questions or are wanting to place an order, please contact:

Kevin Marshall 682/209-8819 (DFW/E&W TX)

Scott Murphy, 832/250-9673 (Houston/Beaumont)

Jackson Polston (Austin/MidTex)

Ephraim Marshall, 214/427-7911 (OK)

Scott Polston, 832/247-0601 (SA/Valley)

We thank you for your understanding and continued support!

Sincerely,

Scott Polston
President
