

May 1, 2025

To Our Valued Customers:

Due to the duties/tariffs affecting our products, we are announcing an estimated 10% price increase on Roofnado brand, Spyder brand, and Sahara brand products in the U.S. market. All orders shipped on or after May 31st are subject to the new pricing. Please work with your local sales representative and/or regional sales manager on any orders placed before this notice with a requested delivery of after May 31st. Any potential changes to the tariffs imposed, i.e. government ending the 90-day hold on additional tariffs, will be addressed in an additional price adjustment once we know what those tariffs will be. We will continue to work to keep you informed as this situation unfolds.

This increase will be reflected in the total price of the product. Freight will continue to be included in the "per roll" pricing. We are preparing new price sheets and will have them to you as soon as possible. Your regional manager or local sales representative will be in touch when they are finalized. Until then, please feel free to contact us with any questions.

Best Regards,

-Sentry Building Innovations Management Team
