Subject: Distributor Price List Updates- Deck, Rail and Accessories

As we prepare for the coming year, TimberTech has updated the 2026 pricing pages for our Deck, Rail and Accessories product lines. These new price pages reflect a modest increase in some (although not all) product collections to help off-set a portion of the increased costs that we have experienced in the last year with specialty resins, performance additives, labor and other costs across the supply chain. These new prices will be effective on orders placed on or after **October 27, 2025**. Please note that all Early Buy orders will ship at the new pricing, regardless of when the orders are placed or shipped.

The following are the summary details of the price changes for specific product categories:

TimberTech Deck & Accessories	All Deck, Riser, Fascia and Porch Collections	Approx. 2%
	Fasteners and other Accessories	No Change
	TimberTech Aluminum Framing	No Change
Rail*	All Composite Railing including Post Caps and Skirts, Hardware Packs, etc.*	Approx. 2%
	Reliance Rail, Impression Rail Express, Fulton Rail, Statement and Pinnacle Rail	No Change

** Given the wide range of products in this category, please see the attached updated Distributor Price List for details by product.*

The updated Distributor Price Lists for each product are included with this communication. These Price Lists also include the new products which are being launched in the near term. A separate communication detailing those product launches and discontinuations also accompanies this letter.

Our focus remains on continuing to deliver a reliable and steady supply of products to meet the demand from the market and to deliver a strong product and service value proposition to our customers. We thank you for your continued partnership and support as we look forward to a successful 2026.
