February 3, 2026

Dear Valued Customer,

For almost 50 years, US Aluminum has been manufacturing quality gutter accessories and gutter protection products at affordable prices with fast shipping. We have also never changed our famous \$100 prepaid freight policy with very quick lead times.

While the quality of our products has remained consistent throughout the years, the aluminum market has not. Thus, US Aluminum is announcing a price increase of approximately 7-9% on all aluminum, stainless steel, copper and fastener products effective March 2nd, 2026.

Again, one thing that will not change is our policy of shipping all orders over \$100 at no charge. We want to help you keep those inventories turning!

Although we will attempt to fill all orders completely, we do reserve the right to limit bulk purchases prior to the increase based on historical order patterns.

If you have any questions, please contact your local sales representative or give us a call at (800) 877-7026. We will be sending you updated pricing no later than March 2nd.

Thanks again for your business and best wishes for a continued safe and successful 2026.

Sincerely,

A handwritten signature in blue ink that reads "Chad Harmon". The signature is fluid and cursive, with the first and last names being more prominent.
