

May 21, 2026

Dear Valued Customer,

Due to continued increases in raw material, manufacturing, and transportation costs across several product categories, Westlake Royal Building Products™ will implement pricing adjustments on select roofing components effective Wednesday July 1, 2026. Orders picked up or received on or after the effective date will be priced with the new pricing.

Most affected products will increase between 5%–12%. Certain specialty metal clip and fastening products are experiencing significantly higher material cost pressures and may require adjustments exceeding 12%, depending on product type and configuration.

Updated price lists and market-specific pricing details will be available from your local Territory Manager or Branch Management team prior to July 1, 2026.

Thank you for your business and understanding as we continue to provide high-quality roofing systems, reliable supply, and strong customer support.

Questions? Contact your Westlake Royal™ Territory Manager or Customer Service at (863) 824-1289.

Sincerely,

Eric Miller  
Vice President, Sales
