Subject: Upcoming Therma-Tru Price Increase

Dear Valued Customer,

On May 18, 2026, Therma-Tru announced a targeted price increase on select decorative glass, components, and door slabs. To quote Therma-Tru "As part of our ongoing efforts to manage rising freight and logistics cost, we will be implementing a price adjustment of 5% on July 15."

As a result, the Woodgrain Distribution Division will implement a price adjustment on all orders effective July 15, 2026. This increase will apply to all Therma-Tru products subject to the increase—whether sold direct or from warehouse inventory.

If you have any questions, please contact your local Sales Representative.

The Woodgrain Distribution Division and Therma-Tru remain committed to delivering best-in-class products and service. We sincerely appreciate your continued business and support.

Sincerely,

Tim Schneider
