

March 24th, 2025

Valued Customer,

On behalf of all our employees at Boise Cascade, we want to express our sincere thanks for all of your support during the 1st quarter of 2025. We appreciate the business.

With the recent tariff activity several of our suppliers will be making price adjustments to offset these costs. As we evaluate the impact of these increases, we continue to look for ways to be more efficient in an effort to take costs out of the channel.

Along with tariffs, we continue to see raw materials, labor and freight increases. Because of these cost increases, we are planning to adjust our door pricing on April 28, 2025.

The April 28, 2025 adjustment will break down as follows:

- 4.5 -7% average increase across the entire Therma-Tru product offering out of warehouse
- This increase will take effect on April 21, 2025 for Direct Orders only

Our sales team will contact you directly to communicate the specific changes in detail. New doors quoted within our door configurator will reflect the updated pricing on the aforementioned date.

Our configurator will automatically adjust all affected, open quotes at the start of business on April 28th. Please submit any open orders prior to this date to avoid automatic price adjustments.

We thank you for your continued business and support.

Best Regards,
