Vinyl Windows & Doors

Feb. 12, 2024

Dear Valued Customer,

Effective April 1, 2024 we will be implementing a 4 % price increase on all windows and doors. All quotes will need to be updated by Mar. 31st to reflect this increase before placing an order. We will adjust your discount, but you will need to adjust your own customer's discounts within your distributor account.

The continuing inflationary pressures including the volatile supply chain, rising fuel costs, increasing wage pressures and the labor shortage along with multiple increases in our vinyl extrusions, glass, hardware, packaging and all other materials associated with our window products necessitate this increase.

As we diligently work through navigating the challenges associated with these current economic conditions, we thank you for your orders, your loyalty, and your patience.

If you have any questions, please contact Ryan, rkehtel@walshwindows.com or at 218-722-2030 at our office.
